

West Coast Seeds

2019 Fundraising Seeds

We have selected 65 of our best-selling varieties of flower, vegetable, and herb seed packets to provide "something for everyone".

All our seeds are Untreated and Non GMO, with germination rates exceeding Canada Number One standards. All our seeds are

suitable for organic growing.

Each seed packet sold will earn you 40% profit off the packet price.

Kitchen Basil Blend HR1011

- Genovese basil has big smooth green leaves for use in pesto and pasta
- Red Rubin brings distinctive colour and pungent flavour to salads and vinegars
- Cinnamon basil leaves are lovely as a garnish. Use the flowers in salad

Lettuce Leaf Basil HR1035

- Large, bright, puckered green leaves with a glorious aroma
- Use these big leaves in salad mixes or to wrap savory morsels
- Height to 45cm (18")

Siam Queen (Thai Basil) HR1018

- The authentic variety for Thai cuisine
- A vigorous, highly ornamental plant with purple stalks and pink flowers
- The flower clusters of this variety are edible and tasty
- Height to 45cm (18")

Wild Bergamot HR1076

- Curious pink flowers appear in July and August
- Stout, strong stems bearing aromatic leaves
- Height to 60-90cm (24-36")

Chives HR1065

- Hardy, perennial, and easy to grow
- The chopped stems and pink flowers add a fresh, mild green onion flavour to sandwiches, salads and baked potatoes
- If grown in containers, divide frequently enough to provide for constant lateral growth

Cilantro Santo Long Standing HR1073

- Slow bolting and frost-tolerant
- Direct sow every two weeks from spring to late summer for continuous harvest
- The mature seeds are called coriander
- It will grow in full sun to partial shade
- Use deep pots for tap roots to grow

Bouquet Dill HR1086

- Fragrant, lacy foliage, large yellow flower heads, and large seeds
- A great variety for bunching for the market
- Compact plants around 75-90cm (30-36") tall

Peppermint HR1090

- Hot, rich mint aroma
- Spreading perennial plant, grow in containers to control growth
- Both the leaves and flowers can be dried for teas or used in stews and sauces

Greek Oregano HR1117 Certified Organic

- Offers the best, most pungently-flavoured leaves for cooking
- Very hardy when established,
- Wonderful aroma in the garden with tiny white and pink flowers
- Height 45cm (18")

Parsley Dark Green Italian PL572 Certified Organic

- Flat, dark green leaves are deeply cut, with a rich parsley flavour
- Ideal for cooking or salads
- Easy to grow, sturdy plants with upright stems.

- Heavily frilled, large leaves with long succulent stalks
- Stout heavy-set dwarf plants 30-42cm (12-15") tall and 60cm (24") wide
- Leaves are bright blue-green, and ready for fresh use all winter

- OP, 65 days
- A cross of Lacinato with cold hardy Redbor produces these multicoloured plants
- It is slower to bolt and more productive than Lacinato

- OP, 67 days
- This Bibb-type lettuce forms a tight little rosette of soft, dark-green, upward-facing leaves surrounding a tender, pale centre
- The small hearts don't become bitter in hot weather. Later plantings stand well into fall and make good growth in spring cold frames

- OP, 35 to 40 days
- Grow a salad mix with this blend of certified organic baby-leaf lettuce varieties
- Enjoy contrast in colour, flavour, and texture from freshly cut salad greens
- Fast to grow

- OP, 60 to 80 days
- A blend of five very popular lettuce varieties: a buttercrunch, a red-leaf, a romaine, and two green-leaf lettuces
- Sow small amounts regularly for a continuous harvest
- Pretty enough for the flower garden
- Full of nutritious flavour

- OP, 70 days
- Tiny, personal size lettuces. Best picked when they are 15cm (6") tall
- Outer leaves are crisp and firm but tender, semi-savoyed, and vivid green
- The compact size allows for tighter spacing
- Resistance to bolting

- OP, 50 days
- Flattish, elongated, green leaves grow on long, thick, pale white stalks
- Mild, sweet flavour that is good in salads and excellent in stir-frys
- Thin to 30cm (12")
- Grow from early spring to late fall

- Our signature mix offers a wonderful array of delicate tastes and colours
- It includes curly endive, sweet red oak-leaf lettuce, wavy rich dark green escarole, chicory, arugula and chervil

- OP, 82 days

- It has a thin, hard rind with firm, sweet, and orangey red flesh with small seeds
- The round fruits grow to around 18cm (7") in diameter

- OP, 50 days
- Summer and fall production
- Kincho is a Japanese variety with dark-green leaves and tall, straight stems that do not bulb
- Increase the white stem length by planting in trenches and hilling up

- OP, 150 days spring sown/300 days fall sown
- Forms very large bulbs with sweet, mild flavour and crisp, juicy flesh
- Overwinter by sowing in August
- Direct sow or start transplants from late July to August 15th. Hardy to -23°C (-10°F)

- OP, 60 days
- Sweet and tender 15cm (6") pods
- Plants are "semi-leafless" so they put more energy into producing pods, making for higher yields
- Resistant to Fusarium Wilt race 1 and powdery mildew

- OP, 62 days
- **Heirloom** pea with stocky, semi-dwarf bushes from 30-45 cm (12-18") tall
- Grow in containers or a garden bed
- Each of the 8-10 cm (3-4") pods contains 6-9 medium green sugary peas
- Winner of the RHS Award of Garden Merit

- OP, 62-70 days
- An improved version of Sugar Snap
- 10cm (4") long, plump pods grow in pairs at each node for improved yield on 1.5-2m (5-6') tall vines
- Not enation resistant

- OP, 70 days
- Mild-medium hot, 2,500-5,000 SHUs
- 8cm (3") long and 2cm (1") wide
- Plants grow to 60-90cm (24-36") tall
- Mature, red jalapeños can be smoked, then dried or pickled, to produce chipotle chiles

- OP, 110 days.
- An **heirloom** dating back to 1863
- Round 18cm (7") diameter pumpkins
- Sweet flavour and fine texture for pies and canning
- Stored in a cool, dry spot, it will keep for months

- OP, 28 days
- Multi-colour blended for variety. Each radish grows at about the same rate and are all white inside but the skin colours are white, red or purple
- The roots are round, crisp, and tastefully tangy

- F1, 43 days
- Unrivaled resistance to bolting
- All-season growing.
- Smooth, round, dark green leaves that never crack in processing
- Perfect for winter high tunnel growing, and a good choice for beginners

- OP, 60 days
- Tender texture and excellent flavour
- The open bush grows to 60cm (24")

- OP, 100 days
- Mild tasting, thin-skinned, delicate squash
- 500g (1 lb) fruits
- Stores well for months after harvesting.
- Oblong and creamy white, with green bands

- OP, 110 days
- AAS Winner
- Produce uniform fruits with creamy, rich, dry, yellow- orange flesh
- Store for as long as six months

- OP, 60 days
- All-America Selection winner
- Thick red, yellow, rose, gold, and white stems bear slightly savoyed leaves
- Can be planted in large containers

- OP, 62 days
- Vine
- Excellent flavour and early maturity
- Productive bright red, thin-skinned medium-sized fruits
- Perfect for salads and sandwiches, and home processing and canning

- OP, 70-75 days
- Vine
- Firm, deep red **heirloom** tomatoes can be up to 227g (8oz) each
- The perfect choice for the Italian kitchen garden, the market garden, or patio containers

- OP, 60 days
- Bush
- Plants grow to 1m (3'), covered with 2cm (1") diameter, round, yellow tomatoes
- Rich sweet taste
- Incredible yields all summer
- Perfect for containers.

- F1, 35 days
- Smooth and pretty gourmet turnips
- Japanese breeding produces uniform, globe-shaped roots with snow-white skin and a crisp texture
- Grow short rows frequently so the fresh roots and tops are available from spring to fall

- Semi-double flowers
- Apricot, cream, gold, and shades of yellow flowers
- Plants are 60cm (24") tall with long stems
- Excellent for cutting

Photo credit Leona Schroeder

- Lovely, delicate Cosmos in a range of pinks and off-whites
- Grows to 90cm (36") tall in full sun
- Attractive to hummingbirds, butterflies and wild bees
- This blend looks fantastic on its own as a short growing meadow flower

- Brilliant 5cm (2") wide flowers in gold to mahogany
- 30-38cm (12-15") plants
- Grow in full sun
- Deadhead regularly to enjoy flowers from May to heavy frost
- Easy to grow

- Bright, colourful double blooms of yellow, orange and deep red
- Hardy annual flowers all summer long in full sun or part shade
- Height: 40cm (16")

- Pale mauve-blue flowers unfold like ferns at the top of long leafy stems and attract bees
- The delicate, lacy foliage bears a resemblance to yarrow
- It grows to 23cm (9") in full sun or part shade

- The red poppies of Flanders Fields
- Single, scarlet flowers
- Drought tolerant plants will grow in most soils
- Deer-resistant
- Plant height: 60cm (24")
- Will self-sow in sun or light shade

- A superb semi-dwarf mixture of red, scarlet, orange, salmon, mauve, rose, pink, and white
- Large, cup-shaped flowers are 15-20cm (6-8") in diameter
- Attractive seed pods from which seeds can easily be harvested
- Perennial

- Growing to only 1m (3') tall
- Well-suited to containers, decks, or small growing spaces

- With so many to choose from and only so much space in the garden, a blend of the tall sunflowers to enjoy in a mixed planting
- This package combines five varieties that grow over 2m (6') tall to brighten up the back of the garden

- Long vines grow 2-3m (6-10') with sturdy stems
- Solid colours
- Excellent cut flowers
- An excellent candidate for growing in the greenhouse
- Mild fragrance

- Sowing the seeds of plants that bees and other pollinators forage on is a critical step in helping bees have a future
- This blend is specially selected by our Certified Bee Master for use in managed landscapes such as disused laneways, verges, or along the edges of cultivated areas in residential or agricultural properties

- Grows to about 20cm (8") tall
- Self-sows readily
- Edible flowers look attractive sprinkled over salads
- Direct sow April to July. Plant seeds 5mm (¼") deep
- Seeds germinate in 12-14 days

- The brilliant colours and longevity of this blend are selected to attract butterflies
- Made up of 20 species, it is half annuals and half perennials
- This mix will also attract birds and other wildlife to the area

- These really are the giants with a height to 1m (36")
- The bushy plants carry masses of double flowers in brilliant hues: red, yellow, orange, lavender, maroon, violet and white

- In celebration of Canada 150, this blend is as red as the maple leaf, and as white as the driven snow
- Best cut flowers
- This blend grows 76-100cm (30-40") tall
