

Have a great idea to bring people together in your neighbourhood?

Apply for a grant and bring your idea to life!

Deadline to apply: April 9, 2019

Neighbourhood Small Grants support people who want to make their communities better places to live. We even have Greenest City Neighbourhood Small Grants to support projects that focus on making neighbourhoods greener.

We give grants from \$50 to \$500 to projects that focus on building and strengthening relationships between neighbours. Projects range from potlucks and clothing swaps to neighbourhood walking tours and multicultural cooking classes. Greenest City Neighbourhood Small Grants can include anything from community gardens to waste reduction workshops and bicycle repair.

Apply online or visit your local neighbourhood house for a paper application:
