'Hello, my name is _____

I'm a parent and my child attends a Kiwassa Neighborhood House program.

We have been notified of potential changes to \$10aDay childcare funding.

I understand the BC government is moving towards a new funding model, and I am concerned about what that would mean for my child and my community. To lose the funding necessary for the high-quality care we now experience would be devastating for all of the families, educators, administrators, and support staff who make excellent affordable childcare possible.

If this funding model becomes the only option for Kiwassa, either our programs will no longer be financially accessible, or our staff will be unethically underpaid and undervalued. Either option is devastating.

I will be voting based on childcare in the next election. Please advocate for our interests urgently.

Thank you for your time.'
